SUMMARY

Aspiring software and cybersecurity professional with hands-on experience building web applications and security-focused projects. Proficient in Python, JavaScript, React.js, and Tailwind CSS, with practical experience in AI-powered resume analysis, threat detection, web vulnerability assessment, and responsive frontend development. Strong problem-solving skills with a solid foundation in data structures, algorithms, and object-oriented programming.

SKILLS

Frontend: React.js, Tailwind CSS, HTML5, CSS3, Responsive & Mobile-First Design

Languages: Python, JavaScript ES6, Java

Cybersecurity: Web Security, Vulnerability Assessment, Ethical Hacking, Threat Detection, Security Log Analysis

Backend & Concepts: FastAPI, Basic Backend Concepts, Data Structures & Algorithms, OOP, Web Performance

Data & Tools: Data Analysis, Database Management, Git, GitHub, VS Code, Vercel, Chrome DevTools

EDUCATION

SASTRA Deemed University

B.Tech, Computer Science & Engineering — CGPA: 5.6/10

Thanjavur, Tamil Nadu

Expected 2028

Balaji Junior College

Intermediate, MPC — 97%

Katheru, Rajahmendravaram, A.P.

2024

Tirumala Proactive EM High School

SSC — 84.17%

Visakhapatnam, A.P.

2022

PROJECTS

AI Resume Analyzer | *Python, FastAPI, NLP, Machine Learning*

2026

- Developed an AI-powered resume analysis platform for ATS scoring, job matching, skill-gap identification, and career recommendations.
- Implemented resume and job-description analysis to identify matched skills, missing skills, strengths, and areas for improvement.
- Built a full-stack application with a FastAPI backend and responsive web interface for interactive resume analysis.

ThreatLens XDR | *Next.js, TypeScript, Tailwind CSS, Recharts*

2026

- Developed a security monitoring and threat detection platform with a SOC-style dashboard for analyzing security logs.
- Implemented detection for brute-force attacks, suspicious IP activity, and port scanning with severity-based threat classification.
- Built interactive threat visualization, event history, incident report generation, and CSV data export.

Web Vulnerability Scanner | *JavaScript, Web Security*

2026

- Developed a web security assessment tool to identify common vulnerabilities including XSS, SQL Injection, and CSRF.
- Implemented automated vulnerability-testing workflows for identifying potential weaknesses in web applications.
- Applied practical web application security and vulnerability assessment techniques throughout development and testing.

Personal Portfolio Website | *HTML5, CSS3, JavaScript, Vercel*

2025

- Designed and developed a responsive personal portfolio website showcasing education, projects, interests, and contact information.
- Implemented responsive layouts, smooth-scroll navigation, and mobile-first design using HTML5, CSS3, and JavaScript.
- Deployed the website on Vercel and optimized the interface for different screen sizes.

CERTIFICATIONS

- Google Network Security Specialization** | Google (via Coursera) | Issued August 2026 | Credential ID: JHRI7D7V45M7
- Google Cybersecurity Professional Certificate** | Google (via Coursera) | Issued August 15, 2026 | Credential ID: 7F876TFJIJ5V
- Certified Ethical Hacker (CEH) Specialization** | Pearson (via Coursera) | Issued August 16, 2026 | Credential ID: 3OBL9ZKWDFK9

HOBBIES & INTERESTS

Hobbies: Travelling • Listening to Music • Coding as a Personal Activity

Interests: Cybersecurity & Ethical Hacking • Software Development
